Professional Summary

Aspiring **Cybersecurity Engineer** with a strong foundation in software development, **network security**, and **ethical hacking**. Passionate about applying academic knowledge to real-world technical challenges. Experienced in **Python**-based development, cybersecurity frameworks, and collaborative project environments.

Education

Coorg Institute of Technology, Kodagu
Computer Science and Engineering (Cyber Security)

Sept 2023 – Present

St. Anne's Pre-University College, Virajpet
Higher Secondary Education (PCMC)

May 2021 – March 2023

Technical Skills

Languages & Core: Python, C, C++, HTML, SQL

Security Tools & Platforms: Kali Linux, Linux, Nmap, Wireshark, Metasploit, Burp Suite

Concepts: Cybersecurity, Networking, System Security, Technical Documentation

Internship Experience

Skillcraft Technology – Cybersecurity & Technology Intern

Nov 1 – Nov 30, 2025

- Engineered **Python**-based security tools and automation scripts to handle practical, industry-relevant tasks.
- Applied core security frameworks and theoretical knowledge to real-world development environments.
- Collaborated in cross-functional technical teams to deliver project milestones on schedule.

Projects

Keylogger Detector

- Developed a **Python**-based utility to monitor system processes and detect potential keylogger threats in a local environment.

Python Security Suite

- Developed a collection of security tools including a **Caesar-cipher** encryption program, password strength checker, and image manipulation scripts.

Smart India Hackathon Project

- Presented a **Lightweight Cybersecurity Framework** for Smart India Hackathon at the college level.

Certifications & Accomplishments

- TheTechUnique** Cyber Security Professional
- Tata** Cybersecurity Analyst Job Simulation
- Cyber Security Implications & Defence

Additional Information

Languages: English, Hindi, Kannada, Malayalam, Kodava

Interests: Sports, Travelling, Photography, Hiking, Drawing
